# Suhana Sajid

Abu Dhabi, United Arab Emirates | LinkedIn | Github | suhanasajid4@gmail.com

### **SKILLS & INTERESTS**

### Hard Skills

- Python Frameworks and libraries: Flask, Tkinter, Pygame
- Full-stack development
- CSS Frameworks: Bootstrap, Bulma
- Database design and management
- Version control

#### **Soft Skills**

- Problem-Solving
- Communication
- Attention to detail
- Continuous learning
- Independent thinking
- Team player

**Programming Languages:** Python (Expert) | HTML (Proficient) | CSS (Proficient) | Javascript (Proficient) | MySQL (Proficient) | Git (Proficient) | C (Working knowledge)

Interests: Data analysis and visualization, Entrepreneurship and startups, Accessible Education, Generative AI

**Language Proficiency:** English (Native Fluency)

## PERSONAL PROJECTS

Sudoku Solver December 2022

Github - Sudoku-Solver

- Designed an intuitive user interface to generate and solve Sudoku puzzles of varying complexity utilizing the standard Python library Tkinter and object-oriented design principles.
- Employed efficient data structures and algorithms and input validation mechanisms to optimize the solving process.
- Demonstrated strong problem-solving skills by addressing technical challenges independently, employing available tools such as Generative AI to devise innovative solutions.
- Documented the project thoroughly, including clear instructions on how to use the application and its underlying code on GitHub.

IdeaHub May 2022

GitHub - IdeaHub

- Independently conceptualized, designed, and developed IdeaHub, a web-based platform for idea sharing and collaboration.
- Applied software engineering principles to determine project requirements, ensuring alignment with user needs and goals and adapting to evolving requirements.
- Implemented back-end functionality using a server-side framework Flask to handle user authentication and data storage and retrieval from a database management system.
- Created a responsive and user-friendly interface using Bootstrap and Jinja, a templating engine for Python, in conjunction with JavaScript.

#### **EDUCATION**

# **University of Nottingham**

Malaysia, Selangor

BSc (Hons) in Computer Science

September 2022- September 2023

# **VOLUNTEERING EXPERIENCE**

# University of Nottingham School Experience Team Member

Malaysia Selangor

October 2022 – May 2022

- Executed workshops for high school students, teaching fundamental concepts in Python programming.
- Collaborated with peers to effectively manage time to cover required topics within the limited time frame.
- Constructed learning resources and presented Python-based games to engage students and foster their interest in programming.
- Actively engaged 20+ students by asking questions and providing support to address any questions they had regarding the content.
- Communicated with students to convey programming concepts simply and understandably.
